Paper Dart

Materials:

A rectangular piece of cardboard or paper, (21cm x 30cm), sticky tape, plasticene, counters, coloured pencils and scissors.

Procedure:

1. Fold a rectangular piece of paper in half, lengthwise.

2. Open the paper out and fold in the corners to the centre.

3. Fold the corners again into the centre.

4. Fold the model along the first fold.

5. Fold the back flaps down, as wings.

6. Test how far the paper dart can fly.
